

Leaf Table Runner

DIMENSIONS:

- **Finished Runner Size:**
14" x 48"

SUPPLIES:

- **Leaf Print:** $\frac{2}{3}$ yard
- **Backing:** $\frac{2}{3}$ yard
- **Batting:** $\frac{2}{3}$ yard
- **Binding:** 1 yard
- **Rotary Mat**

This pattern uses the fabric line, **Botany** by Lauren and Jessi Jung. If anyone has questions about this pattern's instructions, please post them on our blog at www.LaurenAndJessiBlog.com and we'll get back with you!

Leaf Table Runner

Lauren + Jessi Jung

Read through the complete pattern instructions before starting.

QUILTING

- 1 Cut out Templates A and B in order to trace them onto fabric.

- 2 On right side of fabric, trace 2 Template A leaves, 4 Template B leaves, and 4 REVERSED Template B leaves.

- 3 Before cutting out leaves, layer backing (face down), then batting, then traced leaf fabric (face up). Pin layers, as in preparation for quilting.

- 4 Using scissors or rotary cutter, cut out layered leaves directly on trace lines.

- 5 Quilt each leaf as desired.

Hint: Sample runner mimics leaf veins for the quilting lines.

BINDING

- 6 Cut binding strips $2\frac{1}{4}$ " wide on fabric bias.

- 7 Fold strips in half and press fold.

- 8 Sew binding to front of each leaf, matching raw edges and following a $\frac{1}{4}$ " seam allowance.

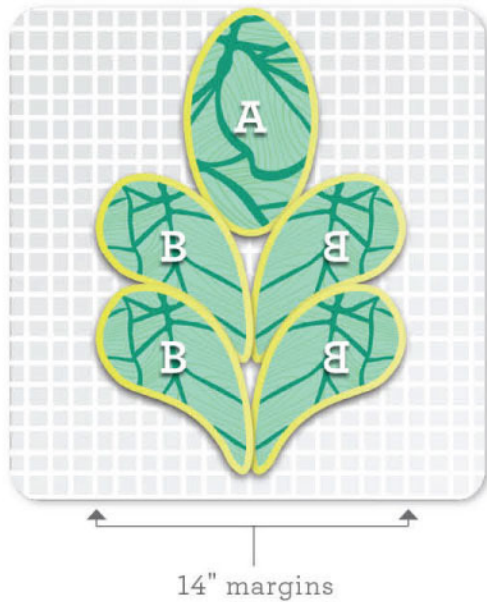

- 9 Fold binding to underside of leaf and pin in place.

- 10 Machine or hand stitch binding to complete each leaf.

- 11 Arrange half of leaf runner (5 leaves) on a rotary mat to assist you with exact leaf placement. Designate a center line on your mat.

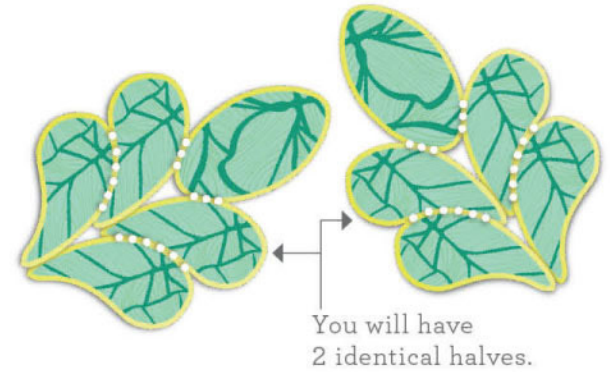

Hint: Make sure that a Leaf B and a Reversed Leaf B always connect at this center line, and that leaves remain within a 14" width span.

- 12 Hand stitch leaves together (on underside of runner) ONLY where they touch each other on the rotary mat.

Hint: Continually check leaf alignment after stitching each leaf together, using the rotary mat lines as a guide.

- 13 Repeat steps 11 and 12 for the other half of the runner.

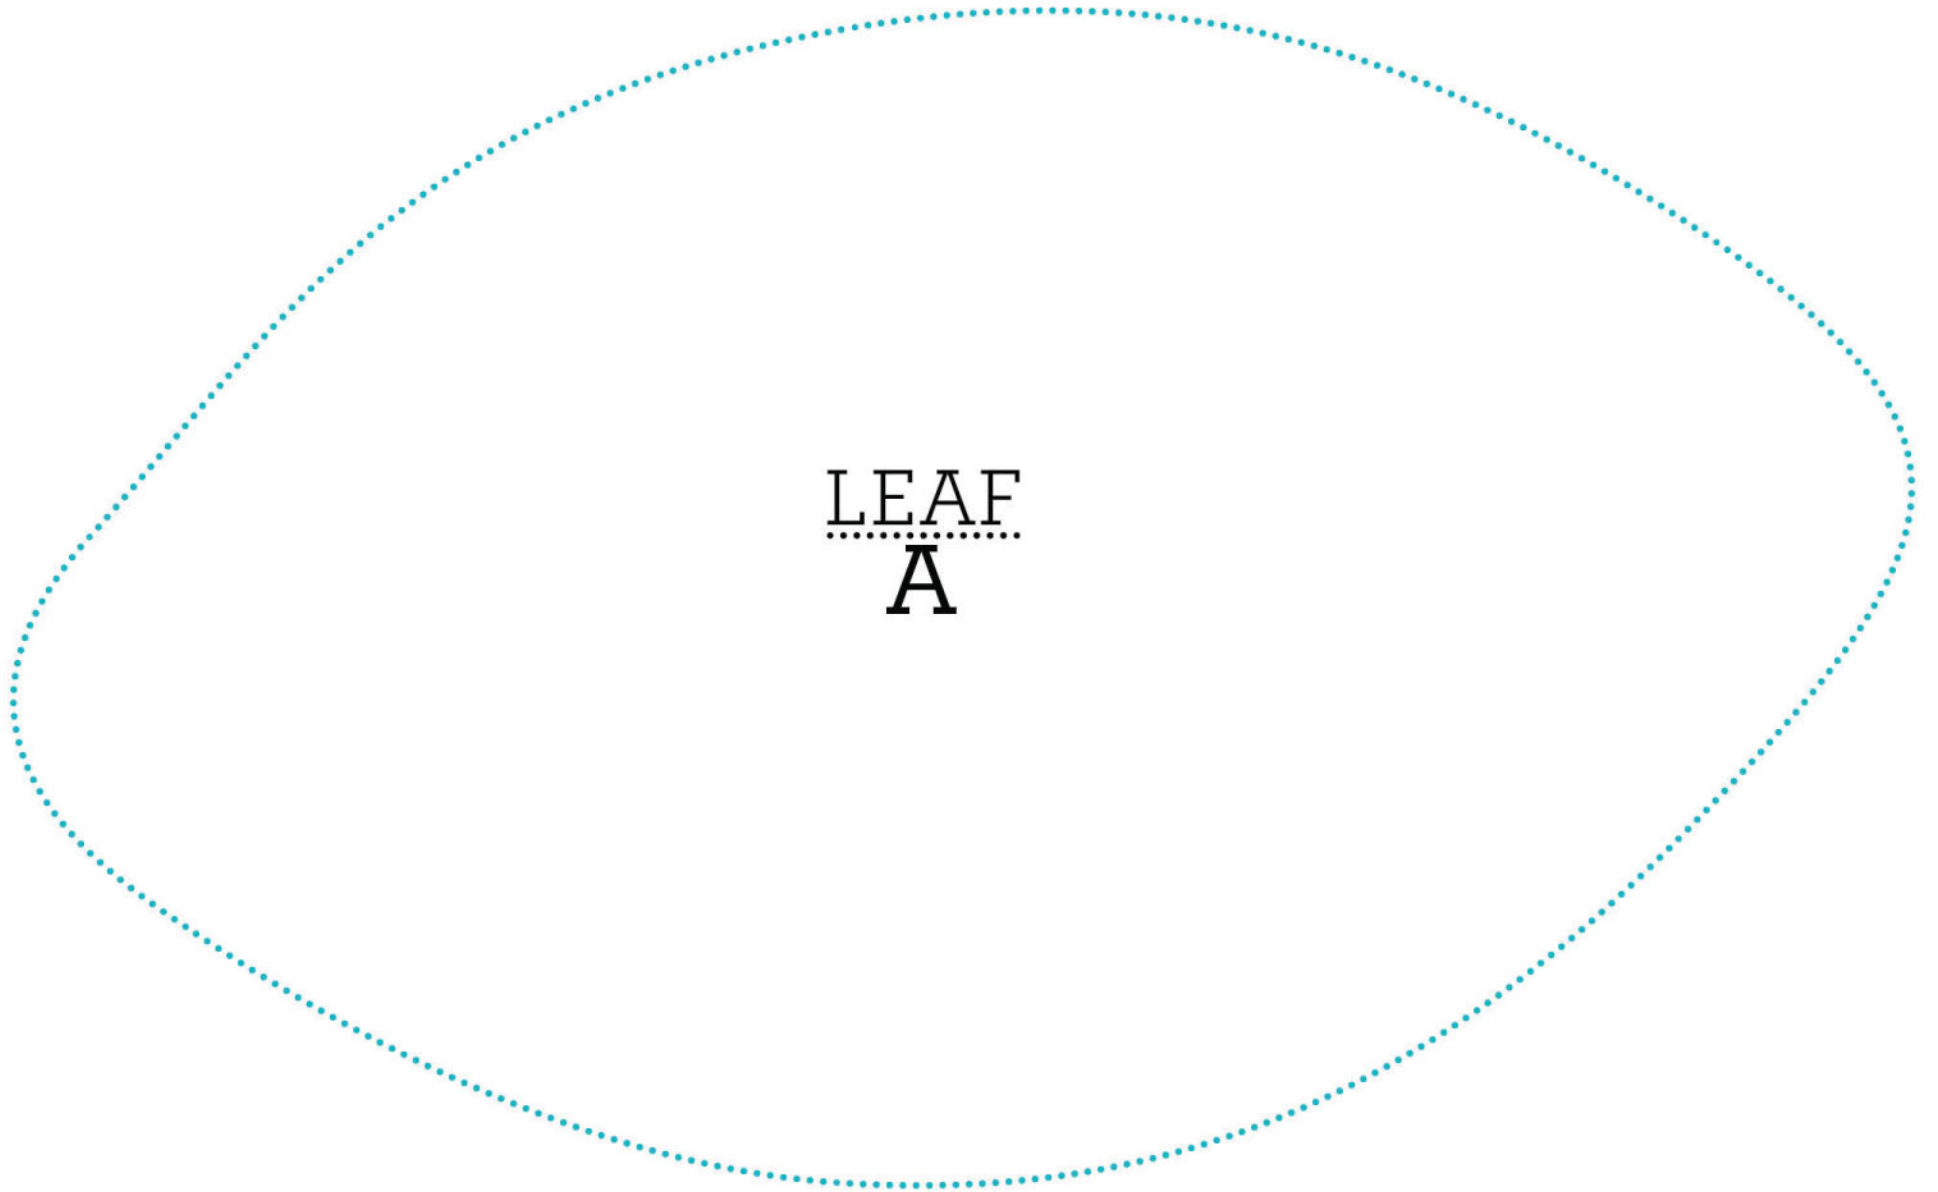

- 14 Hand stitch runner halves together on underside (only where leaves touch).
NOTE: Continue to remain within a straight 14" width span.

{ TEMPLATE FOR LEAF A }
CUT TWO LEAF As.

LEAF
A

TEMPLATE FOR LEAF B
CUT 4 LEAF Bs. THEN
CUT 4 REVERSED
LEAF Bs.
